Subject: No! To any more gun laws.

Dear Judiciary Committee, In regards to Monday's hearing on gun laws for Ct. I, Anthony Calabro a life long resident of Ct. whom has had my gun permit since I was 21 and I am now 49 feel these direct laws are a form of unjustified punishment to us permit holders that are respectful to the law and law enforcement 100% and 24-7! Why is cause and corrective action being constantly redirected towards us the law abiding citizens unjustifiably?! The problem clearly are the criminals and criminals do not care about or follow laws whatsoever! Stop using political correctness propaganda to punish the law abiding gun permit citizens of Ct. just to appease the public emotionally because Democrats in Hartford want to ignore and turn a blind eye to criminals in the cities of act. Criminals obtain guns and any other types of weapons from the black market or they are purchased or obtained out of State and brought through our State illegally and undetected! This is the root cause of public safety. Connecticut has early release and slap on the wrist laws on the books to reward the perpetrators and the perpetrators have more rights than the victims! It is the CRIMINALS that are the root cause and you people in Hartford have to hold them not us to consequences and accountability, because without consequences or accountability you have no order and without order you have chaos! Stop ignoring the issue at hand here! Connecticut already has the most toughest laws against law abiding gun permit holders on the books in the entire country! We legal gun owners as myself are on your side so why are we being punished unjustifiably?! I have a safe, respectful and secure family where I raise my kids with love, respect, responsibility and kindness to all fellow citizens. Please stop this utter unjustified and unnecessary madness towards us legal gun owners. We want our second amendment right protected. I have family members as police officers in both Waterbury and Watertown as well. If criminals have nothing to fear then they will never ever change their behavior or actions! It is simple common sense of cause and corrective action. Hartford and our Governors and Mayors of crime ridden cities hopefully have a conscious to know if you do not start directing focus on the criminals then innocent lives that get injured, disabled or killed happened due to you on you watches and therefore in turn maybe the citizens that lose lives due to criminals and gang thugs should start suing any politician or committee that sets the wrong laws that do not fix the root causes at hand. Stop avoiding the criminals and letting them out early time after time to recommit murders and put police officers in unnecessary multiple and repetitive situations that can cause them their lives. We will remember every year at election time and we as well as myself will educate the public that Democrats support criminals. I ask intelligently, factually, sincerely and respectfully that this moment forward you will stop punishing us law abiding legal gun permit holders because it is the unjustified shameful political correctness propaganda, policies and laws that will bring innocent people heartache because you are not holding exclusively the criminals accountable! Lastly one suggestion... how about re-directing tax payer money to schools for bullet proof windows, doors and have automatic metal detectors for a first set of doorways so that a possible threat can be quarantined before heading though another set of doors to get through the main building. Please do not ignore simple accurate facts and solutions to these issues. Stop the madness of shady political charades and have a conscious plus some dignity and self respect. Thank You.
